Stay safe when it floods

Goolwa Channel and Mundoo Channel communities' coastal location and low elevation mean they are at risk of flooding. Flooding is more likely when an elevated high tide (or king tide) and storm surge occur at the same time. Flooding may lead to roads being closed and electricity supply being disconnected.

Emergency contact details

- For all life-threatening emergencies call **000**
- For emergency assistance from the SES call **132 5000**

Other useful contacts

- Alexandrina Council: **8555 7000**

- SA Water: **1300 729 283**
- Goolwa Police Station: **8555 2018**
- Health advice from HealthDirect: **1800 022 222**

Preparing BEFORE

- Know your property's flood risk
- Check your house and property are 'flood ready'
- Keep an eye and ear on the weather
- Prepare a Household Emergency Management Plan and evacuation kit
- Communicate with your neighbours.

Staying safe DURING

- Decide if you will stay or go
- Secure your property and valuables
- Avoid driving and walking through flood waters
- DO NOT touch electrical equipment if it is wet
- Communicate with your neighbours.

Recovering AFTER

- Take care when returning home
- Inspect your home, property, septic, power and water supplies
- Be careful of snakes, spiders and other vermin
- Check on your neighbours.
