

23 February 2024

Hello

We're upgrading your water services on the South Coast – Waterport Road, Port Elliot

Together with our contractor McConnell Dowell Diona Joint Venture, we will soon begin upgrades to water infrastructure in your area to help facilitate future growth, increased water demand and to improve reliability of the water supply to the region.

These works involve the installation of a new 1.7 km long water main along Waterport Road between Lincoln Road and Hill Street.

When it's happening

Works are scheduled to start in mid March 2024 and will take approximately five months to complete, depending on weather conditions and any technical constraints we may encounter. Our standard construction hours are 7am to 5pm, Monday to Friday. **There will be no work on weekends, public holidays or during school holidays.**

We will endeavour to complete the works as quickly as possible, with minimal impact to the community.

What to expect

Traffic management will be in place along Waterport Road between Lincoln Road and Hill Street during construction hours of 7am and 5pm Monday to Friday. This will include a detour during construction times and reduced speed during all other times to ensure the safety of our work crew and the community. During construction times, access will be provided for local residents and businesses. Please see map over for more details.

Construction impacts will be kept to a minimum, and because our crews are mindful of surrounding residents and businesses, we will make efforts to reduce noise or light disturbance where possible. If your driveway access will be impacted, we will contact you.

Keeping you updated

If you want to know more about these works or be on our project update list I encourage you to contact us.

No interruption to your water services is expected throughout these works. If there is a need to temporarily disrupt your service, we will let you know with a minimum of four business days notice.

Thank you for your patience and understanding while we improve your water supply network on the South Coast.

Kind Regards

Laura Jones
