Message from Mayor Keith Parkes

Welcome to the Autumn edition of Alexandrina Alive. I hope you had an enjoyable holiday period.

Council regularly consults with the community as part of our decision-making process. We are committed to engaging as widely and actively as possible through a range of engagement activities. Community engagement helps us to achieve more effective governance through balancing decision making with sensitivity to community needs, interests and aspirations. Well planned community engagement activities and processes enhance a vibrant local democracy and support the development of ongoing relationships in the Alexandrina region.

Our next major community engagement will be on Council's draft Annual Business Plan and Budget. This document guides Council's activities so that we can make the best possible progress towards meeting the objectives outlined in our Community Strategic Plan. It also outlines how we plan to allocate our budget and what services and projects will be developed in the forthcoming financial year.

I encourage everyone to have your say on the draft Annual Business Plan and Budget, and any other community engagement activities. Your say is extremely important in guiding Council decisions. All details for our engagement activities can be found on our website www.alexandrina.sa.gov.au.

South Australian Wooden Boat Festival is back – in April 2017

The award-winning South Australian Wooden Boat Festival is back in 2017 – in April! The date has been changed from February due to extremely hot weather for the past two Festivals, where boaties and visitors found it difficult to enjoy the full Festival experience. The new dates are 22 and 23 April 2017 at the historic River Port of Goolwa - mark it in your diary.

Autumn is the perfect time to host the South Australian Wooden Boat Festival, with Goolwa traditionally experiencing fine weather. Milder weather will ensure better conditions for participating boaties and for visitors to enjoy the on-water spectacle.

“The new date will ensure that we miss the warm Summer weather and also the busy February and ‘mad March’ period in South Australia,” said Alexandrina Council Mayor Keith Parkes.

“We are keen to see the community get behind this iconic event and make it the best Festival we have held.”

A highly-enthusiastic new community committee has taken the reins in organising the 2017 Festival. New Chairperson Garry Coombes is involved with Armfield Slip and Boatshed, which organised the inaugural South Australian Wooden Boat Festival in 1989.

“I am proud to be associated with the South Australia Wooden Boat Festival and to work with the talented and energetic team which will steer the development of the 2017 event,” said Mr Coombes.

To contact the 2017 South Australian Wooden Boat Festival Committee, or for more information, please email info@woodenboatfestival.com.au.

Are you a volunteer in the Alexandrina Council area? Council is rolling out the red carpet to thank volunteers for their efforts!

Sit back, relax and enjoy the music and entertainment throughout the day with a free movie of your choice between 10am and 10pm at Wallis Cinemas Mount Barker on Friday, 13 May 2016.

This event is open to ALL volunteers in the Alexandrina Council region and there is a free bottle of water and popcorn for all volunteers. Please note that there is a \$4 surcharge for all 3D films.

To claim your voucher, simply fill in an online survey which is available at www.alexandrina.sa.gov.au/volunteering

The Volunteer Movie Day is held as part of National Volunteer Week, from 9 to 15 May 2016. Established in 1989, National Volunteer Week is the largest celebration of volunteers and volunteerism in Australia, and provides an opportunity to highlight the role of volunteers in our community and to say thank you to the more than six million Australians who volunteer.

www.alexandrina.sa.gov.au/volunteering

Unlocking the Secrets of Strathalbyn

A new website that promotes Strathalbyn has been launched recently by the Strathalbyn District Commerce Association and the Strathalbyn & Lakes Tourism Association. The website, strathalbynsa.com.au, is a one-stop-shop for everything Strathalbyn-related. It offers information on where to shop, stay, what to do and where to eat in the area.

“The idea of a new website for Strathalbyn first arose out of discussions during the Global Financial Crisis and survey results that mentioned the need to consider branding and marketing for the town as a response to tenancy vacancies,” said Belinda Croser from the Strathalbyn District Commerce Association (SDCA).

“The SDCA became aware that the Strathalbyn & Lakes Tourism Association (SLTA) was also thinking of developing a Strathalbyn website, as were other parties in the township.

“The SDCA and the SLTA thought it appropriate to collaborate to achieve a single website for the town that could bring together information on Strathalbyn and link to other informative websites.”

It was around this time that Council began work on the Strathalbyn Town Plan and requests were received to allocate more resources to economic development in Strathalbyn. The SDCA approached Council to financially support the development of the website, resulting in a funding mix of \$2,500 from Council, \$2,500 from the SLTA and \$4,000 from the SDCA.

“Branding and website developers worked with a small sub-committee comprising local businesses to consider other town websites and the results of a survey on how traders perceived the town,” said Ms Croser.

Above: Children’s Bridge, Strathalbyn

The colours of blue (representing the Angas River), stone (representing historic buildings), green (representing parks and gardens) and orange (representing the canna lilies in the Soldiers Memorial Gardens) were selected as base colours for the website. Website developers suggested the catchphrase of Strathalbyn – A Secret Worth Sharing.

“The selected catchphrase also plays upon the ubiquitous “sharing” that occurs through Facebook, which is now a common marketing tool. The selected logo was a re-working of the current town logo of the Children’s Bridge and St Andrew’s Church, with the new image including better proportions and a solid edge to better assist with placement on the website and other marketing materials,” said Ms Croser.

“The current site strathalbynsa.com.au is now live and both SDCA and SLTA will continue to make this site the main portal for Strathalbyn business and tourism, and in the future the local community,” said Jo Scheiffers from the Strathalbyn & Lakes Tourism Association.

The website is an ongoing project with many additions still under development. More mapping features are still being worked upon, as well as more work continuing on the community and business sections of the website.

Mount Compass Wastewater Treatment Plant Complete

Council is delighted to announce that the Community Wastewater Management Scheme (CWMS) expansion third and final stage has now been completed with the Mount Compass wastewater treatment facility fully constructed and operational from April 2016.

The township consists of approximately 400 houses with approximately 60% of the community serviced by the existing CWMS. With the support of the LGA CWMS subsidy scheme, work commenced in 2012 to extend the existing CWMS scheme to the CBD area and old residential area. This required the construction of a new gravity network and pumping systems, 44 megalitre lagoon and a new waste water treatment plant.

CWMS is a system designed to collect and treat wastewater from properties using a network of common infrastructure. It is designed to collect, treat, re-use and/or dispose of primary treated effluent.

Council, as the manager of CWMS assets, is responsible for the operation, maintenance, upgrading and replacement of the existing system.

There are considerable public health, environmental and economic benefits from CWMS schemes. These include, but are not limited to, less pollution of ground and surface waters, protection of the local environment from overflows and leakages, increased water security and economic advantages from community development.

Clayton Bay - Canoe Launch

Canoeing and kayaking at Clayton Bay was just made easier, with the construction of a new launching platform completed recently. The platform is part of stage one of the Clayton Bay Foreshore Masterplan. Installed at the point of Island View Drive, the platform provides an opportunity for residents to engage in an active lifestyle and explore the waterways around Clayton Bay.

The public toilet facility at the old Clayton Boat ramp has been recently reopened, with a new connection to mains water. Other works at the point, as part of stage one of the masterplan, include the redevelopment of an unsealed car park area, timber steps from the footpath to the car park, tree planting and new signage. The Clayton Bay Foreshore Masterplan was endorsed by Council on 15 June 2015 and guides Council's management and maintenance of Clayton Bay's foreshore reserves over the next ten years. The masterplan was developed in partnership with the Clayton Bay community and seeks to balance demands for recreation and nature, beauty and function, heritage and progress to create a foreshore that continues to attract people while protecting and enhancing the natural and cultural landscapes of the area.

Council Supporting Our Youth

As one of the largest employers in the region, Alexandrina Council recognises the importance of providing employment and work experience to local people, particularly our youth. As well as Work For the Dole, Green Army, Undergraduate work placements and school work experience, Council is the proud host of a number of trainees and apprentices. Council offers a diverse range of career opportunities and currently has trainees in recreation services (parks and gardens), library, construction and maintenance, business administration and an apprentice carpenter in the building maintenance area.

In 2015 Alexandrina Council was successful in receiving two rounds of the Regional Youth Traineeship Program via the State Governments Jobs Accelerator Fund. The funding is aimed at local youth aged 17 to 24 and provides Council with financial support towards the employment cost for a two year period. Alexandrina Council, along with training providers Maxima and Arts Ready, are proud to be part of this innovative initiative that provides qualifications and work experience.

Alexandrina Council congratulates the young trainees and thanks them for their contribution to the workforce.

All enquiries about work experience or employment opportunities can be directed to alex@alexandrina.sa.gov.au

Strathalbyn & Milang communities to be part of the Adelaide Hills Sculpture Symposium

Members of the Strathalbyn and Milang communities have banded together, with support from Alexandrina Council, to commission a sculpture for each town in the last Adelaide Hills International Sculpture Symposium (AHISS). The symposium will be open for the public to see the sculptures being created from 4 - 25 April 2016 at The Cedars, Hahndorf.

Strathalbyn needs to raise \$30,000 to cover the cost of creating the sculpture and positioning it in the town. Commitments of over \$22,000 have already been made, including \$10,000 from Alexandrina Council. The balance of the required amount must now be raised and members of the Strathalbyn community are invited to support the project by making a contribution.

The Milang community is close to successfully raising the \$20,000 required, including \$10,000 from Council. Highly acclaimed sculptor Gheorghi Filin from Bulgaria-Italy has been announced as the Milang artist to create a lasting legacy of sculpture for the Milang foreshore.

Council's Strathalbyn Community Advisory Panel has recommended that the sculpture in Strathalbyn be erected on the triangle of land between St Andrew's Church and the Glyn Morris Building off Sunter Street.

All donations to the AHISS are tax free and can be made on the symposium website www.adelaidehillssculpture.com.au, or by contacting any of the supporters for the Strathalbyn or Milang sculptures. Visit Council's website for contact details www.alexandrina.sa.gov.au.

Above: Recently landscaped AHISS sculpture at Langhorne Creek.

Above: Council trainees James Hunt, Kane Rodgers, Ashleigh Darrie, Camron Wray, Elise Kemper and Alesi Ankersen with Mayor Keith Parkes.

“I am very privileged to have received an internal traineeship of this extent. Learning about Council and all the different departments that lie within has really opened my eyes to how important local government is to the community.”

Ashleigh Darrie, one of Council's newest employees undertaking a Certificate III in Business Administration and working across all areas of Council.

Fortnightly Kerbside Collection

Alexandrina Council endorsed fortnightly collections of waste, recyclables and greenwaste commencing 1 July 2016. Changes to the schedule will be included in the 2016 waste calendar to be mailed in June 2016.

The new Kerbside Waste Collection Policy includes initiatives aimed to meet the needs of large households, families with residents in nappies and residents with special medical needs. Residents meeting one or more of these criteria may apply to Council for an additional waste bin to be collected fortnightly at no charge.

Residents who do not already have a full set of bins (waste, recycling and green organics where applicable), may purchase subsidised bins at 50% of the normal price from the Waste & Recycling Depots at Goolwa and Strathalbyn. Compost bins and worm farms will also be available to residents at a 50% subsidy.

Community Information sessions will be offered at five locations across the Council area in May and June 2016 for residents wanting to learn more about the upcoming changes to the system and the initiatives in place to assist with the transition to fortnightly collection.

COMMUNITY INFORMATION SESSIONS

Port Elliot: Wednesday 18 May, 1-2.30pm,
Port Elliot RSL - 10 The Strand

Strathalbyn: Tuesday, 24 May, 7-8.30pm,
Strathalbyn Community Centre - Colman Terrace

Milang: Tuesday, 7 June, 1-2.30pm, Milang
Old School House - 24-25 Daranda Terrace

Goolwa: Thursday, 9 June, 7-8.30pm
Council Chambers - 11 Cadell Street

Mount Compass: Thursday, 16 June, 7-8.30pm,
Mount Compass Memorial Hall

For bookings please call 8555 7405

An audit conducted in 2012 found that 55% of the general waste consists of potentially recyclable materials (28% recyclables and 27% food/green waste). On the basis of this, Fleurieu Regional Waste Authority (FRWA) recognised the potential to encourage diversion of waste from landfill by altering the bin collection schedule.

The decision was based on investigation and research undertaken by FRWA between 2012 and 2014. This research included public consultation, several region-wide bin audits and a pilot program between October 2013 and February 2014 in Hayborough.

The 2014 FRWA bin audit delivered similar results to the 2012 audit, highlighting that valuable resources are still being sent to landfill.

The new collection schedule will be included in the 2016 waste calendar which will be mailed out in June 2016, in time for the change to the system.

Council has made this change to reduce the amount of waste that goes to landfill and to increase the rate of recycling and resource recovery. Sorting of waste into the correct bin is the key to making the most of this new service, which offers additional bin volume for recyclables and green waste.

Current: Weekly waste and 4-weekly recycling and green waste:

Total = 1040L

New: Fortnightly collection of all waste streams:

Total = 1240L

www.frwa.com.au

Goolwa Children's Centre Garden

Growing Green Thumbs at Goolwa Children's Centre

In early 2015, Alexandrina Council's OPAL Program team worked with Goolwa Children's Centre to apply for a Coles Junior Landcare Garden Grant to revitalise six existing raised garden beds at the Centre. In May, OPAL and the Centre were delighted to find out that the application was successful. The grant of just over \$1000 enabled the Centre to transform the garden space with the purchase of new fertile soil, seeds, seedlings, mulch, watering equipment and signage to welcome visitors to the garden.

Throughout the garden revitalisation, led by passionate Early Childhood Worker Molly Parkin, the Centre's children participated in the entire "Paddock to Plate" experience. Beginning with developing the soil in the garden beds, children exercised their green thumbs by planting vegetable seeds and seedlings, watering and weeding garden beds, harvesting their produce and cooking and eating their homegrown veggies – yes, even fresh beetroot! Families also tasted the fruits of their labour with excess produce sold at the Centre for a gold coin donation. The project received generous support from businesses and the broader community, with donations of wood chip mulch, seeds, seedlings, fruit trees, and precious volunteer time and energy. The artistic talents of Council staff were also put to good use, working with Goolwa Children's Centre staff to design and organise the new garden sign featuring a picture of children who attend the Centre.

The project has been an overwhelming success and a clear example of how matching local wellbeing needs to relevant funding and partnership opportunities can truly enable community ideas to flourish and grow vibrant, connected communities.

Sharing our Beaches, Foreshores and Reserves

Beaches can be great fun for dogs and people but it's important that dog owners understand that they share the beach with people without dogs, people who might not like dogs or be afraid of them.

Dogs must be on a leash between 10am and 6pm on beaches and foreshores. These restrictions apply seven days a week throughout the year. Dogs may be exercised off-leash outside these hours with owners ensuring that their dog is under effective control and that the dog will return when called and obey commands. Dogs must be on a leash at all times when in other public areas.

Dog owners are also responsible for cleaning up after their dogs. It is an offence not to do so. Keep an eye out for community sponsored dog waste bag dispenser and bins throughout the Alexandrina Council region. For more information visit our website www.alexandrina.sa.gov.au/dogs.

WORLD
HERITAGE
BID

Council continues to support the bid for achieving World Heritage Listing of the Mount Lofty Ranges. Since joining the project in November 2013 significant progress in terms of research and support has been achieved. The core significance of the Mount Lofty Ranges cultural landscape is based on the historic values associated with Edward Gibbon Wakefield's 19th century systematic colonisation model. Other values such as geology, Aboriginal culture, ecological and cultural diversity, agricultural and viticultural production, innovation, recreation and aesthetics all underpin the national and global significance of the landscape within the bid area. To assist in supporting this element of the bid significant research is being undertaken.

One of the underlying messages that the consortium wishes to let people know is that, by pursuing this listing, it will not impact on the current and future abilities of land owners to operate their farms or businesses. Conversely it has been shown that obtaining listing can provide significant opportunities from an economic development perspective and opens up tourism prospects that have positive flow on effects.

The Project Management Group, which consists of staff from each of the participating organisations, has set the goal of having the National Heritage nomination completed by February 2017. The group seeks the support and involvement of landowners, businesses and community members to gain National Heritage listing. Individuals, businesses and organisations interested in being involved in the bid are invited to make contact via details available on the website www.mountloftyranges.org.

If successful, the region will join an elite global club that includes landscapes in Tuscany, Cinque Terre, Champagne and Burgundy. The bid has a core ambition to deliver real and lasting economic, cultural and environmental benefits to the region, regardless of the outcome.

All project background information and progress are on the website www.mountloftyranges.org or Council's website www.alexandrina.sa.gov.au.

Major Project Update

GOOLWA BEACH CAR PARK AND ENVIRONS

Thank you to everyone who has participated in the master planning project so far. We are in the process of developing the draft masterplan and look forward to sharing it with you in the near future via a second round of community consultation. For further information visit www.alexandrina.sa.gov.au/goolwabeachplan

FLEURIEU REGIONAL AQUATIC CENTRE (FRAC)

Construction is well underway for the Fleurieu Regional Aquatic Centre. The facility is expected to be operational by March 2017. For further information and regular updates visit www.fleurieuaquaticcentre.com.au

GOOLWA TCE AND BF LAURIE LANE

Work is progressing well in BF Laurie Lane and in the new alfresco area where the old sliplane has been removed. Pedestrian access will be maintained to the shops where it is business as usual. Be aware of changed traffic conditions around the work zone, but come and walk past and see what is happening. For further information and regular updates visit www.alexandrina.sa.gov.au/goolwatce

To keep up to date with other projects in Alexandrina visit our website www.alexandrina.sa.gov.au/projectupdates

Events

40 Years of Storm Boy

Alexandrina Libraries will be holding a special screening of the film 'Storm Boy' as part of South Australia's History Festival in May to celebrate 40 years since its first release in 1976. Set in the beautiful Coorong region of South Australia, the movie features many iconic buildings of historic interest in and around Goolwa. Based on the novel by Colin Thiele, it explores the special relationship between a boy and his pelican.

Come along and retrace the journey from Colin Thiele's acclaimed book to the making of the film in our unique local setting. The afternoon will include displays of photographs, charts, maps and files from the Goolwa Library's History Room that document the making of the film and a short talk about the author presented by History Room volunteer, Bill Cox, a former Teacher's College student of Thiele's. The film screens at 2 pm and refreshments will be provided by the Friends of the Goolwa Library.
