Goolwa Oval Sports Precinct building design released

20 November 2020

Building designs for the new multi-purpose clubrooms at the Goolwa Oval Sports Precinct have been released this week.

The design follows a detailed consultation process with nine of Goolwa's sporting groups who use the current facilities, and brings to life their aspirations to create a family friendly space that brings people together.

The new building marks an exciting milestone for the project which will provide amenities for numerous users in one unique multifunctional space.

The design features a stunning new two-story building including change rooms, first aid rooms, umpire spaces, toilets, social spaces, canteen, kitchen, bar, multiple storage areas and optimum viewing for its many spectators. Importantly, the works will incorporate environmental elements including solar panels, rainwater storage and recycled materials

The commencement of this project has been made possible through the generosity of funding from the Federal Government and the State Government's Grassroots Football, Cricket and Netball Facility Program. With designs now in place, construction will commence in December and it is anticipated that it will be completed in late September 2021.

Alexandrina Mayor Keith Parkes said the Goolwa Oval Sports Precinct will help meet the growing need for recreational facilities within the region.

"I am delighted to see the design and redevelopment of these fantastic new sports facilities. Council is committed to delivering this important project for the benefit of our whole community."

Alexandrina Council Chief Executive Officer Glenn Rappensberg said the project would bring many positive benefits to the region.

"The Master Plan was created in October 2019 with a vision to create an engaging, contemporary and cohesive space for a multitude of sporting groups. This investment by Government has both social and economic benefits for our region and will stimulate our local clubs, businesses and community groups to grow and flourish," he said.

The concept designs can be viewed on Council's website www.alexandrina.sa.gov.au/goolwaoval
